

Evaluation of PP Counselling – 2018-2019

Pupil Evaluation

The Pupil evaluation clearly identifies a pupil's development during the counselling process. A pupil will fill the form out during the first counselling appointment and during their last appointment. Due to unforeseen circumstances the last form does not always get filled (permanent exclusion/sudden leave of school), these scores have therefore been left out of the percentages given below.

Evaluation Statistics

Table 1 highlights the percentage increase/decrease that has been drawn from the evaluation forms. The closing form also has two extra questions, seen in the attached document. The results of these two extra questions can be seen in Table 2.

The amount of pupils showing a positive change individually and their overall sense of well-being, following counselling, was **100 % of pupils**
