

Evaluation of PP Counselling – 2019-2020

Pupil Evaluation from

The Pupil evaluation clearly identifies a pupil's development during the counselling process. A pupil will fill the form out during the first counselling appointment and during their last appointment. Due to unforeseen circumstances the last form does not always get filled (permanent exclusion/sudden leave of school), these scores have therefore been left out of the percentages given below.

Following from the current pandemic there have been added difficulties of lack of paper use and ending evaluations that were not completed, and verbal endings were done instead. These are not added within the figures below.

Evaluation Statistics

Table 1 highlights the percentage increase/decrease that has been drawn from the evaluation forms. The closing form also has two extra questions, seen in the attached document. The results of these two extra questions can be seen in Table 2.

The amount of pupils showing a positive change individually and their overall sense of well-being, following counselling, was **100 % of pupils**
